Single Sheet Steel Structure

This staircase is crafted from a single, continuous sheet of steel with a thickness of 0.76", offering a unique visual impact. With an 8-foot diameter and 11-foot height, its minimalist design creates a modern, refined presence in any hospitality setting. The solid wood steps are paired with LED on the side, casting a soft glow that highlights the structure's elegant form. The handrail is integrated as a flat, forming element to maintain the staircase's continuous design.

Glossy RAL Color Helix Staircase

This helix staircase features 0.76" thick laser cutters which provide a robust foundation, complemented by handrails crafted from circular tubing with a 1 1/2" diameter, coated in a layer of polished bronze. The steps and risers find their support in precision-cut steel sheets, arranged in a ribbon-like structure, creating a visually seamless ascent.

WINNER 2024
PRODUCT DESIGN
COMPETITION

A distinctive feature of this staircase is its continuous side at the lower part, elegantly reconnecting the two lateral structures. The entire structure is unified into a monolithic block, skillfully concealing any visible fastenings or joints. The glossy red finish, applied in-site by a specialized artisan, further enhances the staircase's aesthetic appeal. Versatility is a key aspect of this design, as the structure can be tailored to various preferences. Options include polished or satin stainless steel, gold-plating, or a coating of oxidized bronze. The steps offer a choice between different wood essences like beech, oak, walnut, or teak.

Triple Loop Helix Staircase with Copper Finish

The Triple Loop Helix Staircase is the latest Marretti creation, designed to become a **monumental centerpiece for luxury hospitality environments**. Its fluid, sculptural form captures attention, while the rich copper finish adds warmth and sophistication to any space. The design masterfully juxtaposes sleek marble steps with the bold, copper-clad guard structure, creating a **striking visual dialogue between texture and form**.

MapWhat to findFamous PeopleFlorenceEng

The Feast of the Assumption of Mary commemorates the belief that the Virgin Mary was assumed body and soul into Heaven at the end of her earthly life. In Florence, this feast day is marked by a mix of religious observances, traditional festivities, and summer celebrations.

The name Santa Maria del Fiore reflects the cathedral's dedication to the Virgin Mary. The 'Fiore' (flower) is often interpreted as a reference to the lily, the symbol of Florence.

Santa Maria del Fiore

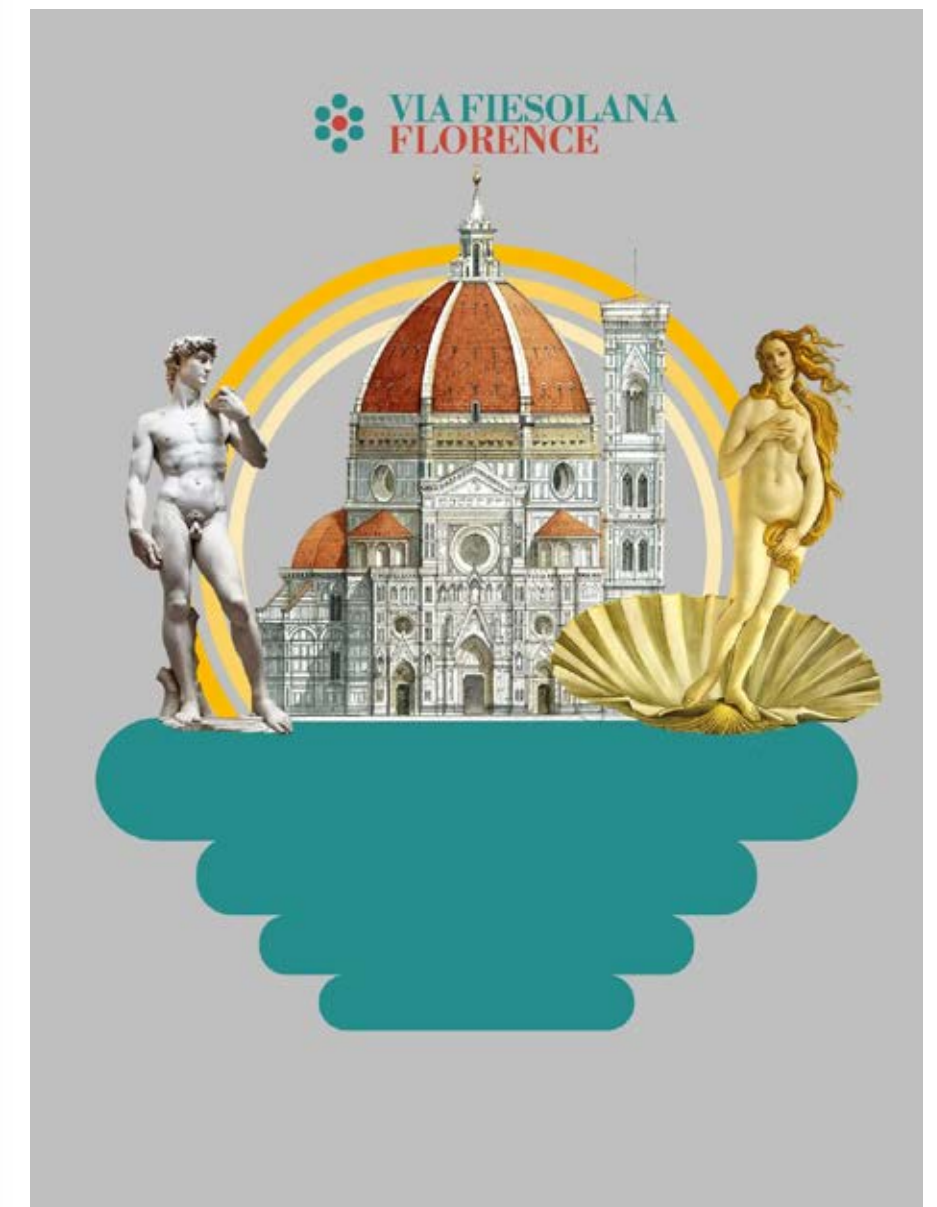

The cathedral's massive dome, designed by Filippo Brunelleschi, is not only an architectural marvel but also a symbol of divine protection and Mary's role as the "Queen of Heaven." Above the central door of the Cathedral appears the sculpture of Mary in the almond (visio placis) surrounded by angels as she goes to heaven.

The *Madonna of the Flower* is a symbolic representation of Mary holding the Christ Child, who is referred to as the "flower" of her womb. This imagery emphasizes Mary's purity, grace, and role in salvation history.

Palio dell'Assunta (Palio di Siena)

While not in Florence itself, the nearby city of Siena hosts its famous Palio di Siena horse race on July 2nd and August 16th, with the August race dedicated to the Assumption of Mary. Many Florentines and visitors travel to Siena to witness this historic event.

Notizie e informazioni dal Comune

PROGETTI E IDEE PER LA SESTO DI DOMANI

Palazzo Pretorio, la ex Lucciola, le proposte dei Sestesi per la redazione del nuovo Piano Operativo Comunale: tra progetti partiti e progetti in cantiere, la nostra città disegna il proprio futuro. L'estate, intanto, rievoca piazze e giardini con decine di eventi all'insegna della musica, del teatro, della danza, in attesa del "concertone" della Liberazione che quest'anno vedrà salire sul palco Samuel dei Subsonica.
